Tip or Complaint: Contaminated solids are being dumped on the ground. These solids are from an ethanol facility that is making the solids (distillers grain) from seed corn that has been treated with chemicals. The air quality is affecting employees and citizens in the area. The piles of distillers or solids leak fluid as they are drying and mold forms over the top of solids. The piles are located on the east side of County Road 10, 2.25 miles south of Mead, NE located in Saunders County.
